Career Objective

Skilled front-end developer with 5 years of experience in designing, developing and maintaining front end web applications. Seeking to utilize my technical skills and expertise to provide value to the employer and contribute to successful projects both today and in future. Aiming to take new challenges and utilize my coding and debugging skills for developing new features and enhance the overall user experience.

Work Experience

ORDINA - Frontend Developer   *Utrecht, Netherlands*

Project: Coding Assessment (Online Portal of Ordina)   [*Sept 2021 – Sept 2022*]

This project is about creating Ordina Portal for evaluating assessment. It has functionality to capture evaluation, process evaluation and administration. This portal is useful for recruitment process and handle by internal employee.

Roles and Responsibilities:
- Designed and developed responsive application using Angular 11, Typescript, Angular Material, SCSS.
- Enhanced application performance by Angular Component based development in view of future Angular framework transitions.
- Proficiency in building responsive and mobile optimized application using SCSS.
- Worked with creating custom directives, services and decorators to interface with restful APIs.
- Consumed APIs to show different assessments as per the units.
- Built the application with use of Angular Material for UI design and themes.
- Implemented HTTP requests using RxJS Observable library to handle multiple values over time.
- Worked in Test Driven Development environment, leveraged test suite to provide unit tests for all new functionalities using Jasmine.
- Worked with Jira, which is managing project requirements and tasks. Used Git for version control.
- Worked extensively in Agile Development process.
- Designed and developed the application using Agile Scrum methodology by breaking down the project to several sprints.

Technologies used-
Angular 11, Typescript, SCSS, Git, HTML5, CSS3, Jasmine Unit testing.

PXL.WIDGETS HEROES - Frontend Developer   *Haarlem, Netherlands*

Project: Top40 Music App   [*Apr 2021 – May 2021*]

Roles and Responsibilities:
- Developed responsive, cross-browser web application using Angular 11, Typescript, HTML5, SCSS.
- Used ESLint to improve code quality.
- Performed bug fixes and application review using lighthouse.
- Accessed the process of building the RESTful API.
- Translated complex design requirements into interactive user experiences to promote customer engagement and drive web traffic.
- Implemented responsiveness using CSS frameworks like Tailwind and Bootstrap.
- Worked in Test Driven Development environment, leveraged test suite to provide unit tests for all new functionalities using Jasmine.
- Regularly debugged code and maintained quality standards.
- Enhanced the usability of existing applications by applying the latest accessibility standards and best practices.
- Successfully collaborated with other developers and designers to continually expand application capabilities.

Technologies used-
Angular 11, Typescript, ESLint, SCSS, Tailwind, Bootstrap, HTML5, CSS3, Jasmine Unit testing.

BIT BROTHERS PRIVATE LIMITED - Application Developer   *Mumbai, India*

Project: SMC   **[*Nov 2018 – Mar 2019*]**

Roles and Responsibilities:
- Modify and maintain existing systems for adaptation to technology changes.
- Generate design and development plan using new applicable technology and current tools and techniques to provide expert code to accomplish highly complex technology needs.
- Work very closely with UI and visual designs to create good cross browser experiences.
- Excellent proficiency with code optimization and debugging technics with JavaScript, HTML, CSS3.
- Mentored junior developers and conducted code reviews, improving code quality and knowledge sharing across the team.
- Worked on the development of several web applications using Angular 7/8, TypeScript.
- Developed reusable components and services that improved code efficiency.
- Reduced page load times by optimizing backend APIs and services.
- Worked on projects that involved integrating third-party libraries and RESTful APIs.
- Experience with Karma test runner Jasmine testing framework.

Project: Startup Mumbai   **[*May 2018 – Oct 2019*]**

Roles and Responsibilities:
- Designed and developed responsive, cross-browser web pages using Angular 7, Typescript, HTML5, CSS3.
- Performed bug fixes and code reviews.
- Collaborated with team members to implement new feature developments.
- Implemented enhancements that improved web functionality and responsiveness.
- Created maintainable, explicit applications using Store management such as NgRx.
- Utilized NPM scripts to build and test in a NodeJS application.
- Developed backend Restful API in NodeJS and implemented JWT authentication.
- Worked on REST APIs to create services and tested on postman and used in Angular HTTP service calls and bind the JSON data.
- Actively supported in planning and testing features.
- Worked on Karma test suite and perform jasmine unit testing.
- Manage CI/CD using Jenkins.

Technologies used-
Angular 7, Typescript, CSS, HTML5, CSS3, Restful APIs, JWT Auth, NodeJS, Jasmine Unit testing, CI/CD, Jenkins, Agile.

369 MICRO SYSTEM PRIVATE LIMITED - Software Engineer   *Mumbai, India*

Project: Sanmar   **[*Jan 2017 - Apr 2018*]**

Roles and Responsibilities:
- Designed and developed multiple responsive and cross platform pages of the Enterprise based app Portal using Angular 5 with RxJS, HTML and CSS.
- Implemented store management in the angular application.
- Worked closely with programmers and clients to meet project requirements, goals and designed functionalities.
- Collaborated with designers to ensure designs were efficient and technically sound.
- Implemented enhancements that improved web functionality and responsiveness.
- Analyzed and measured the source code quality using Web based open-source platform- SonarQube.

Project: Avactis Center

[*Jan 2016 - Dec 2016*]

Roles and Responsibilities:
- Actively worked on a project focused on Angular based UI framework, in the design and development of multiple pages of the application in Angular 2.
- Supported the migration of the application suite from Angular 2 to Angular 4.
- Created animation effects during the data load, waiting for the response using jQuery.
- Used jQuery to make the HTML, CSS interact with JavaScript functions to make dynamic web application.
- Worked on Karma test suite.
- Worked with the programmers and clients to meet the project requirements.
- Performed the bug fixes and enhancements that improved web functionality.
- Ensured the proper documentation and reports in all stages of product lifecycle.

Technologies used-
Angular 4/5 with RxJS, Redux, Bootstrap, NgRx, HTML5, CSS3

Education

B.E. in Information Technology and Engineering   *Mumbai, India*
INFORMATION TECHNOLOGY   *September 2010 - June 2013*
Mumbai University, Mumbai, Maharashtra

- Specialization track: Online voting System Programming, JAVA & J2EE
- Developed an understanding of the following areas: Pattern Recognition, Data Mining & Data Warehousing, System Software, JAVA & J2EE, Object Oriented Programming with C++, Data Structures with C, System Modelling & Simulation.

Skills & Certification

Computer Languages: JavaScript, HTML, OOP Programming, Bash Shell Scripting, Java, SQL
Project Management: Jira, Slack, GitHub, GitLab
Certifications: Azure Fundamentals
Technology: HTML5, CSS3, Typescript, JavaScript, Angular 2/4/5/8/11, NgRx, ReactJS, Bootstrap,NodeJS, ES6, REST API
Tools: Visual Studio Code, WebStorm, Microsoft Office suite, Karma & Jasmine, Jenkins, Postman
Methodologies: CI/CD, Agile-Scrum, BEM, waterfall

Extracurricular Activities

- Coordinator for the Sports meet
- Hosted series of events in the organization
- Helped in being good at team building and improve socializing skills

Language skills

English Professional working proficiency
Dutch Diploma of Inburgering exam- A2 level

Interests

Outdoor Backpacking, Gardening
Indoor Movies & Music, Crafting, Painting, Solving Sudoku puzzle

Visa status

No Sponsorship Required.
